ZAGROS S2 NEGRO SY HIDROGRIP ELÁSTICO

ED. 20250129

TECHNICAL SPECIFICATION

Regulation	EN ISO 20345:2011
	EN ISO 20345:2022
Certification	S2+HI+CI+SRC
	S2+FO+HI+CI+SR
Class	I
Category	II
Size (Continental)	34-48
Colour	Black
Design / Kind	Shoe / Type A
Electrical resistance	Antistatic
Closure system	VELCRO® adjustable interior

DESCRIPTION OF COMPONENTS

Upper material	Breathable microfiber, machine washable
Toecap	"Fiberplast" Composite 200 J
Anti-perforation midsole	None
Outsole	PU + PU
Lining	Highly resistant foamized fabric with polyurethane foam
Insole	Antibacterial, anti-fungal and antistatic
Upper-sole union	Direct injection to the upper

Return your used Panter® footwear to give it a new life.

Scan to + info

One of the biggest challenges facing the planet today is to reduce the amount of waste we produce per person per year.

In 2015, the United Nations General Assembly set 17 sustainable development goals for the 2030 Agenda that aim to achieve equality between people, protect the planet and ensure prosperity.

At Panter® we are committed to sustainability, which is why we offer users, distributors and customers the possibility of giving Panter® footwear a second or third life.

We are able to convert Panter® shoes through a recycling process, once their useful life is over, into other secondary materials to reintroduce them into the production chain and thus reduce the amount of waste sent to landfills and incinerators, which are so harmful to humans and the planet.

Shoes should not be thrown away in the rubbish, because once they are there they leach plastics, heavy metals and other toxic chemicals into the environment. They take up to 200 years to decompose.

The aim of Recicla Panter® with the material valuation of used footwear is to reduce waste as well as to reduce greenhouse gases.

+ Information on the website (<https://bit.ly/3KKA3m6>) and by scanning the QR above.

Recycling process covered under law 7/2022 of 8 April 2022.

Recycling process audited by Altran Innovación S.L. - Capgemini Engineering.

Medical PANTER®
PROFESSIONAL TAILOR-MADE FOOTWEAR

**Professional
tailor-made
footwear.**

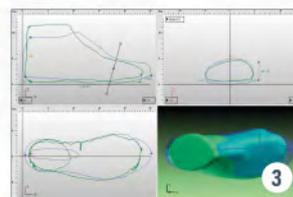

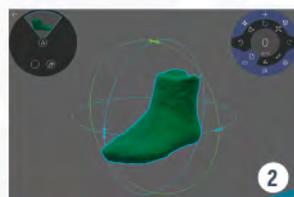

**Manufactured 100%
adapted to your foot
pathology.**

The MEDICAL PANTER® service offers solutions to those users with foot pathologies that require customised professional footwear during their working day.

- CORRECTION OF MORPHOSTATIC ALTERATIONS OF THE FOOT: FLAT FEET, CAVUS FOOT, VALGUS FOOT, METATARSUS ADDUCTUS, DYSMETRIES, DIABETIC FOOT, ALLERGIES, ETC.

- TREATMENT AND/OR RELIEF OF PAINFUL SYMPTOMS SUCH AS TALALGIAS, METATARSALGIAS, PLANTAR FASCITIS, CALCANEAR SPUR, SESAMOIDITIS, ETC.

- COMPENSATION AND REDISTRIBUTION OF PLANTAR PRESSURES TO FAVOUR WALKING BY MEANS OF LIFTS OR ORTHOPAEDIC INSERTS.

Occupational safety isn't an option, it's a right.

PANTER® technology

ISO 21702:2019

Antimicrobial Test Certificate

ISO 22196:2011

BENEFITS FOR THE USER

- **EFFECTIVE AGAINST MORE 50 SPECIES OF BACTERIA** (MRSA, Ecoli, Campylobacter, Legionella, Salmonella...) **AND ENCAPSULATED VIRUSES SUCH AS SARS-COV-2.**
- **LABORATORY-TESTED EFFECTIVENESS AGAINST SARS-COV-2.**
- **DECREASES VIRAL LOAD BY UP TO 99% IN JUST 6 HOURS.**
- **SILVER ION-BASED TECHNOLOGY.**
- **ANTIMICROBIAL PROPERTIES ACTIVE THROUGHOUT THE LIFE OF THE FOOTWEAR.**

BENEFITS FOR THE USER

- Turns the kinetic energy of each step into impetus for the next step.
- Enhances the comfort in:
 - Balanced distribution of foot pressures.
 - Less muscle fatigue.
 - Reduction of lumbar pain.
 - Less risk of injuries.

Oeko-Tex

FREE OF HARMFUL SUBSTANCES

CONTROL OF HARMFUL SUBSTANCES

**ALL THE PANTER
FOOTWEAR
MODELS HAVE BEEN
MANUFACTURED USING
HYPOALLERGENIC
FABRICS**

**Antibacterial
and anti-fungal
100% Breathable
Ecological and recyclable
Long-lasting durability
Improves comfort**

BENEFITS FOR THE USER

All the textiles employed in PANTER footwear are in accordance with the Standard 100 OEKO-TEX (confidence in textiles). This certification guarantees that all the textiles employed are exempt from substances that might be harmful for the humans or the environment.

All the materials used have been treated to avoid the bacteria and fungus proliferation that may cause infections, bad smells or skin problems.

PANTER[®]

Metal Free

WITHOUT METALLIC ELEMENTS

ADVANTAGES

- **40% LIGHTER**

A lower weight is achieved with a metal free toe cap and sole, this brings greater comfort and relief to the foot.

- **50% MORE FLEXIBLE**

We achieve a more flexible and comfortable footwear with a metal free insole, taking into account a factor as important as the natural flexion of the foot.

- **100% METAL FREE**

PANTER[®] metal-free safety footwear is free of metal elements both inside (puncture-proof textile sole, anti impact plastic toe cap) and outside the shoe (textil or plastic D-rings, non-metallic ornaments, etc)

- **IMPROVED THERMAL INSULATION**

Metals are not good thermal insulators, whereas composites and fiberglass get a significant improvement in thermal insulation, protecting against heat or cold.

- **NON-MAGNETIC**

We obtained a non-magnetic shoe made of non-metallic materials, so that it is not detected in metal detectors.

- **ANTISTATIC**

We also obtained a shoe without static electricity, thus increasing the comfort of the user.

- **IMPACT'S RESPONSE**

Another very important characteristic is the response of the material after an impact. This type of material, unlike steel, recovers its shape after impact thanks to the elastic memory. This is very important in case of entrapment as it facilitates the removal of the foot.

- **CORROSION RESISTANT**

There is no risk of oxidation as it is a non-metallic material.
